

Alexis Pizarro Abarca

Senior Supply Chain Data Analyst | Information Systems Engineer

Heredia, Costa Rica | alexpizarro3@gmail.com | [LinkedIn](#) | [GitHub](#) | alexispizarroportfolio.vercel.app

Professional Summary

Experienced Information Systems Engineer and Data Integration Specialist with a strong background in supply chain operations, technical infrastructure, and project management within the Google ecosystem. Expert in the Google Data Stack (PLX, BigQuery, GoogleSQL) and Microsoft Power BI. Proven track record in automating complex workflows using Python RPA and Power Automate, leading digital transformation initiatives that deliver significant cost savings and operational efficiency. Leveraging Generative AI (Google Gemini, NotebookLM, Gems) to accelerate data workflows and optimize complex project delivery, integrating AI tools to enhance analytical accuracy and operational efficiency. Active Scrum Master facilitating agile ceremonies and optimizing team velocity.

Technical Skills

- **Data Stack:** PLX Scripts, BigQuery, GoogleSQL, PostgreSQL, SQL Server.
- **BI & Visualization:** Looker, Power BI (Power Query/DAX), PLX Dashboards, Advanced Excel.
- **Automation & AI:** Python (RPA), Google Apps Script, Power Automate, Google Gemini AI, NotebookLM, Veo, Gemini Gems.
- **Project Management Tools:** Buganizer (Issue Tracking & Component Management), TaskFlow Portfolios, Aurora (JIRA-like tool Admin).
- **Agile Leadership & Tool Administration:** Serving as Scrum Master, facilitating agile ceremonies and optimizing team velocity.

Professional Experience

Senior Supply Chain Reverse Data Analyst | Google (via Accenture)

Sept 2025 – Present

- **RevFleet WS2 Onboarding:** Leading efforts in asset signal sourcing, VRM (Vendor Relationship Management) signal integration, and Business Requirements Document (BRD) refinement.
- **TaskFlow Implementation:** Managing team-level planning and execution through TaskFlow Portfolios.
- Optimizing data extraction using advanced PLX Scripts and GoogleSQL for Reverse Logistics.
- Building strategic Looker reports and PLX Dashboards to drive decision-making.
- Active participant in the **Mentoring & Training Mavens** program, focused on leadership and career growth.

Business Intelligence Data Analyst | B2S Núcleos Fintech

Dec 2024 – Sept 2025

- Developed strategic BI solutions using Power BI and integrated PostgreSQL databases via Power Query.
- Utilized Python for data transformation and advanced analytics to deliver financial insights.

Lead Manufacturing Data Analyst | Pozuelo (Nutresa Group)

2018 – 2024

- Led production planning and digital transformation, migrating legacy systems to Power BI, saving \$500K+.
- Developed Python-based MRP simulations and 20+ Python RPAs for SAP data extraction and SQL interaction.

System Information Coordinator | Pozuelo (Nutresa Group)

2012 – 2018

- Led plant digital transformation, integrating SAP and Shop Floor data using SQL Server and Python.
- Developed real-time web applications with Google Apps Script for digitization of critical processes.

Education & Certifications

- **B.S. in Information Systems Engineering** – Universidad Hispanoamericana (Curriculum complete - Thesis Pending).

- **Google Cloud Platform Analytics Certification** (2025).
- **Google Data Analytics Professional Certificate** (2024).
- **Data Analyst with Power BI** – DataCamp (2025).
- **EF SET English Certificate (B2-C1)**.
